

Neighborhood Services

City of Richland Hills, Texas

Memorandum

To: Honorable Mayor Edward Lopez and members of the Richland Hills City Council

From: Scott Mitchell, Director of Neighborhood Services

Date: March 25, 2019

Subject: Sewer Main Replacement for the 6800 - 6900 block of Hovenkamp Avenue

Council Action Requested:

Consider approval of sewer main replacement from the 6800 block of Hovenkamp Avenue to the 6900 block of Hovenkamp Avenue

Background Information:

The sewer line from the 6800 block of Hovenkamp Avenue (cross-street Kingsbury) to 6900 Hovenkamp Avenue (cross-street Scruggs) partially collapsed at the manhole located in the intersection of Hovenkamp and Kingsbury. An emergency spot repair was made to re-establish flow and attempt to get a camera in the line for further evaluation. Staff was only able to view a portion of the line, which revealed multiple areas of pipe failure. This sewer line has had repeated stoppages over the last few years. The proposed sewer main replacement project will increase the capacity of the line as well as replace old clay pipe with PVC (total of 507 linear feet of line). It will also include the replacement of eight (8) service line taps.

Financial Impact:

Excel 4 Construction, LLC provided a quote for the proposed work in the amount of \$56,075.00. Funding for the project is available from the Sewer System Improvement Funds that were approved in the FY 18-19 budget.
